ACI Global Training Instructor Biography

Peter Hampson

Airport Solutions LTD

Course: Understanding ICAO Annex 14

Peter Hampson has worked in the Aviation Industry for over 30 years. In his role as General Manager of Manchester Airport UK (22 MPPA) he was responsible for all aspects of the Airfields Operation including Emergency Planning and Crisis Management.

Peter has personally "managed" a number of Aircraft Accidents (fatal and non fatal) at several airports and taken the lead role in coordinating the Airports response including Management of the Media and Victim Support.

Peter is now a Professional Consultant and Trainer providing advice and training for ACI, ICAO, Airports, Governments and Regulators on this specialised topic. He also organises Airport Emergency Exercises and has delivered papers at International Conferences including the European Civil Aviation Conference (ECAC) on "Assistance to Victims following an Aircraft Accident".

Peter has had a direct input into ICAO documentation for Emergency Planning at Airports and served on a number of ACI Working Groups and Committees with special responsibility for Emergency Planning.
